

Protect the Icelandic horse from infectious diseases

IMPORTING USED RIDING EQUIPMENT IS PROHIBITED

DO NOT enter Iceland with:

- Used riding equipment, such as saddles, bits, bridles, nosebands, pads, rugs, whips, etc.
- Used riding gloves

Cleaning and disinfection of riding clothes:

- Used riding clothes have to be washed in a washing machine or dry cleaned prior to entering the country
- Riding clothes and boots that cannot be cleaned this way should be washed and disinfected as follows:
 - o Rinse thoroughly with detergent
 - o Dry
 - o Spray with 1% VirkonS® (10g per liter of water)
 - o Store for at least 5 days prior to bringing the clothes into contact with horses in Iceland

As a result of its geographical isolation and strict import policy, Iceland has remained free of serious infectious diseases in animals. Please avoid introducing infectious agents to the country.
